As a hostess and entertainer Miss Perot was very successful, and her friends and friends greatly enjoyed her pleasant hospitality.

—The "People's Call" is the latest feature in journalism in Holt County. It is issued from the publishing house of C. N. Dolans at Craig, and bears at the masthead the name of Chas. —The Christian church in this city, on last Sunday evening observed in a very appropriate manner, their annual Children's Day exercises. A very interesting program was given by the members of the Sunday school, consisting of declamations, class recitations and vocal music. The continued rain of the last week had made it difficult for the teachers to meet their classes in practice, and consequently they were compelled to omit one or two of the best class recitations. The exercises were, however, successful, and were listened to by a very highly appreciative audience. Besides the exercises taken part in by the smaller classes, Miss Alice Barbour, Melville Moss and Nannie Barnett each gave appropriate recitations in a very creditable manner. The success of their entertainment is largely due to the untiring efforts of Mrs. Ora Hunt, who was assisted by Miss Ella H. Jones and Miss Ella O. Fuller in drilling and preparing the smaller classes for their part of the exercises. The Sunday school desires to thank the audience for the liberal collection that they gave at the close of the exercises.

—Ed Brodieback had the misfortune, one day last week, to step on a scythe, splitting the toe on his left foot, and cutting a severe gash in the bottom of the foot. He cannot step on his foot and will have to hobble around on crutches for several days.

—In the report of the "Mother Goose" entertainment the name of Mrs. Ora Hunt was omitted by mistake of the reporter. Mrs. Hunt neglected her household duties and patiently trained the little singers. We have no better instructors in music than Mrs. Hunt and her patients, training little ones can hardly be equaled.

Our Canning Factory.

The canning factory will soon be ready to commence operations. The machinery is being placed in position. Burdick & Castle are working diligently on the well when the weather is kind enough to give its assistance. In a good season's run, are being carefully watched and attended to by the efficient manager, Mr. L. W. Lewis.

Mr. Meek, who has charge of the factory at Falls City, Neb., was here last week looking at our plant. He says it has the largest capacity and is undoubtedly the largest and best equipped canning house in the west—that the machinery has all of the latest improvements and is of the best pattern.

Mr. George P. Luckhardt, who was in attendance at the state meeting of the horticulturists in St. Joseph last week, informs us that he met Mr. W. F. Waller, formerly connected with this paper, but now editor of The Republican in Council Grove, Kas., who told him that their canning factory, which is now entering upon its third year, did not pay any thing the first year, in fact they lost some money, but that the second year it was operated it paid them 10 per cent on the investment, and that the prospects for this year, the third, were brighter than the second.

These remarks are most encouraging and unless circumstances of the most adverse nature transpire our citizens will be able to look with pride upon this enterprise, and that the money invested in it will count with pleasure a goodly number of ducats as a return therefrom.

—Repairing of harness done neat, quick and cheap at Moore's & Kunkel's.
—Miss Maria Thompson, of St. Joseph, is spending a week with her friends, Miss Mattie Perot.

—Don't be backward but go and see D. M. Martin and learn how cheap he will sell you one of these warranted buggies and let the farmers decide which is the lightest in draft and the best work. H. C. Schmidt, Agent.

—Children's Day was celebrated at the Christian church last Sunday. Only about one-fourth of the program was presented, as the inclement weather prevented many of the children from being present; however, a creditable audience was present and a good collection taken for missions.

—Under the new ruling of the post-office department, every newspaper mailed by an individual (not a publisher from publishing office) is charged with one cent postage per copy, regardless of weight, and every periodical not a newspaper, one cent for one copy, and two cents to beyond two ounces.

—Married, by Eugene Kauker, at his residence, Sunday, June 7, 1891, Mr. Wm. W. McKissick and Miss Anna Wickersham, both of this city. Sunday was not the most propitious day in the world to begin life in double harness, but the sixes were thrown the clouds cleared away and they will have a life of clear sailing.

—The representative business men of Mount City held a meeting last week to discuss the proposed building of a mill at that place. We trust they may succeed, for they will find it to be one of the best investments they ever made. No town of the size of Mount City should be without a first-class mill, and there is abundant capital there to have one.

—The amount of garbage in the alleys of the city renders it positively dangerous as regards not only health, but fire. In some of the alleys a match dropped could do thousands of dollars' worth of damage, through the loose dry paper straw and other inflammable article scattered around. Still other piles of rotting vegetation and manure produce a stench which cannot but breed malaria and disease.
